

# SPLICING ALTERNATIVO e TRASCRIZIONE

**Table 1** Comparison of AS statistics for the *Drosophila melanogaster* genome

	FlyBase <sup>b</sup> R 4.3
No. of genes	13 514
No. of spliced genes (multi-exon genes)	11 058
No. of transcripts	19 171
No. of spliced transcripts	16 489
No. of alternatively spliced genes	2814
Percentage of alternatively spliced genes among multi-exon genes	25

EXON G=  
dominio di  
attivazione

**FIGURA 12.43** Regolazione della trascrizione del gene *PEPCK* di ratto. La trascrizione di questo gene, come negli altri casi, è con-
